

The American Piano Show Tribute to the Great American Composers

The American Piano Show

The American Piano Show is an exciting musical concert starring world renowned pianist and entertainer **Linda Gentile**. The show features the music of the great American composers such as Gershwin, Berlin, Foster, Leonard Bernstein, Hogie Carmichael, Rogers & Hammerstein, Cole Porter, Scott Joplin,

John Phillips Sousa and Neil Diamond. One of the show's main draw is Gentile's fabulous rendition of Rhapsody in Blue.

Gentile recently returned from her 9th concert tour of China, where she holds the world record for having performed over 100 concerts there and is the only western pianist to perform and sing in Mandarin. Linda is a former child protégé of the great Liberace, and her piano style and stage comedy are very reminiscent of Mr. Showmanship himself. Liberace said of Linda, “*She is a true piano virtuoso who plays beautiful as she looks!*”

Special guests in the event are Jim Yester, original lead singer of the famed 60's vocal group, **The Association**. Jim sold over 40 million records with the recording group with such hits as “Windy”, “Cherish”, “Never My Love” and “Along Comes Mary.” Yester will be singing as well as accompanying Gentile as part of her band.

Also featured in the show are vocalists Mary Lou Robinson and Andrea Pinkett. Robinson is a fabulous soprano who is known throughout New Jersey. Pinkett was a former regular in the Showboat revue in Atlantic City and her style is classic jazz.

This exciting show is a perfect event for the entire family and a wonderful motivational concert for young music students. A sneak preview of the show is available at www.AmericanPianoShow.com.

News Quotes for Press
